702.630.1221

Teaching Objectives

Dedicated and evidence-based educator with a Ph.D. in neuroscience and 10+ years of instructional experience. Seeking a middle school or science mathematics position to leverage my background in cognitive psychology, research methodology, and data science to foster a high-achieving, inquiry-based environment.

Education

PhD (2018)

Cognitive Neuroscience - *University of Nevada, Reno*

MA (2015)

Cognitive Neuroscience - *University of Nevada, Reno*

BA (2012)

Psychology, with a minor in Computer Science - *University of Nevada, Reno*

Teaching Experience

Clark County School District (Lied STEM Academy), Long-Term Substitute

10/2024 - present

- 6th Grade Accelerated Math / 8th Grade Pre-Algebra
- 7th Grade Accelerated ELA / 8th Grade History and Geography
 - Design and execution of rigorous lesson plans for all levels of learning to maintain high engagement
 - Implement data-driven instructional strategies to prepare students for honors-track education

University of Nevada, Reno, Long-Term Substitute

9/2013 – 6/2019

- Subject expert: Served as the lead instructor for 11+ semester-long courses, including:
 - *Statistical Methods (Psy 210)* and *Introduction to Research Methods (Psy 240)*
 - *Physiological Psychology, Human Memory, Perception, and Intro to Psychology*
- Curriculum design: Developed comprehensive, syllabi, lectures, and assessments for large class sizes
- Student Mentorship: Mentored 15+ undergraduate and graduate level scientists in experimental analysis and design

Sparks Middle School, Math Tutor & Community Outreach

9/2012 – 3/2018

- Provided intensive math tutoring for middle school students in underserved populations, focusing on foundational algebra and problem-solving skills
- Conducted "Brain Awareness" presentations at local elementary and middle schools as well as for the general public at various event spaces, such as the local museum, to inspire interest in STEM careers

Certification

Nevada middle school science and math certification: In progress (*Nevada Teachers of Tomorrow*)

- Status: Fully eligible for Nevada provisional license (secondary science/mathematics)

Skills

Lesson Planning • Department Coordination • Small-Group Instruction • Project-Based Learning (PBL) • Computer Programming (Python, Matlab, C++, Visual Basic, JavaScript) • Advanced Classroom Technology (Smartboards, Cava, Infinite Campus) • IT/Lab Management • Grant Writing • Specialist in Neuroscience (Learning, Memory, Attention) • Effective Communication and Presentation Skills
